To whom it may concern,

We fully endorse without question the Zoi ePCR and the expert staff of Star West. We investigated many products and none could full accomplish what Zoi could do. With Zoi we have found we are able to train our staffs with great ease and quick acceptance from the field. We are the closest Fire Department to Phoenix so the ability to transfer charts is a number one priority for us and our neighbors.

What is also so important to us is the capturing of data that can be used for billing purposes. The ease of integration and the integrity of the data is without any comparison.

If there any questions regarding this letter please contact me at the below numbers.

Respectfully,

Mark Nichols, Fire Chief
