To Whom It May Concern:

It is with great ease and trust I send my recommendation for Starwest's Zoi ePCR Solution. We have been using Zoi since October, 2014. We are the Mesa Fire and Medical Department.

Chief Mary Cameli

Mesa, Arizona 85201
Jurisdiction is Mesa, Arizona
Fire and Medical Services

Mesa Fire and Medical is one of only seven municipal Fire Departments in the USA that have received a Center for Disease Control (CDC) grant to show how Fire Base EMS Community Paramedicine can make both a fiscal and continuity of care difference. The number one thing we needed and did not have was a good electronic data ePCR system and digital informational communicator for our Fire Department and for our Community Paramedicine Project. Our partner in this endeavor is Starwest and their superb Tech staff and agile Zoi ePCR solution which gives us the ability to capture, exchange and transfer the required data that the CDC needs.

Zoi solution met and exceeded our expectations. The staff is local, responsive and terrific to work with.

Please call if I can answer any questions.

Sincerely,

Mary Cameli
Fire Chief
